Wanted

I am a member, Robert Holdsworth, - Datsun 1600,
I am trying to find an old school panel beater to repair some panel issues but I never see anything in our magazine.
I live on the north side of Brisbane, would it be possible to have a list of companies that people recommend for work on our cars or could a request be put in the wanted section
one shop I visited had work to last at least three years in full restoration.

I am a member of the Austin club also for my 1955 A50 and the same problem exists. They have started a page for members of recommended shops to do work but they can't find available panel beaters of the old school

I am hoping that ASMF will have more luck
Regards Bob Holdsworth
